in Richmond.
Years ago for quite a good period he was a member of the city police force under the old Democratic regime. His next appearance was as keeper of the New-Reservoir Park in the days of Reform. This did not suit him, for after a time the work assigned him became too onerous. After this he showed up as an attache in the post-office, from which he in due time disappeared. Last fall he was appointed a Republican supervisor of election and rendered himself very obnoxious by having several election officers arrested, as the Democrats thought, without proper course. Now he shows up with a job on the river just as the fishing season is about to open.

A short time ago when the sub-committee, of which Mr. Crenshaw was chairman, went to Baltimore to see Colonel Craighill, the engineer in charge of the river work, he was spoken to in regard to the spointment.

Colonel Craighill told Mr. Crenshaw that Among the most popular young ladies who visited the city this winter may be mentioned Misses Pattie and Bland Tay-lor, of Norfolk, and Millie Schwarzwaelder Mrs. Thomas Waller, of Stafford county, is on a visit to Mr. George V. Moncure, 406 east Cary street.

Colonel Craighill told Mr. Crenshaw that

Moore, Grace street. the appointment was not his, as had been stated, but had been made by Colonel The Hampton Monitor-Gazette: Mrs. Samuel White and Mrs. Lowry went up to Richmond Wednesday afternoon on a visit to Mr. Frank White. THAT PROMISE.

Last May Colonel Burgwyn promised, so say several of the committee, that if the city would do some dredging down at the monitors, which were practically aground, the Government would do a similar amount of work in the harber. The dredging was done as agreed, but the other part of the contract was not kept.

In February Colonel Burgwyn told the members of the committee that he never made any such promise, but they insisted that he did, and four of them have expressed their willingness of making oath to the fact before a notary.

This was the business on which the subcommittee went to Baltimore, but as in the De Priest matter Colonel Craighill sand he knew nothing about it, and advised a petition to Congress asking for the work within the harbor. Miss Rosa D. Winston, of Louisiana, is on a visit to her sister, Mrs. Ernest L. Bolling, 106 east Main, arriving from the South on Thursday. within the harbor.

TOG IN BAD ORDER.

Last month Colonels Craighill and Burgwyn notified the committee that after the lat of March the services of the tug Craighill would be dispensed with. Now as the tug is city property and has always been loaned the Government free of rent the news did not cause any great consternation to the committee. It had always been the custom for the Government to thoroughly overhaul and repair the boat before returning it. But on this occasion it was brought back just as it was. As a blade of one of the wheels had been broken and sundry other wear and tear sustained the committee refused to receive the boat.

A Statement from Mr. Burgwyn. The assets stated in the deed are a house and lot on Twenty-sixth street between M and N, and the interest in the brick carpenter-shop on Fourteenth street between Broad and Ross, and the unexpired lease of the ground on which it stands. All lumber, timber, material, ropes, trucks, and other property in shop, yard, or elsewhere; also, one horse and wagon, an iron safe, a saw-machine and attachments, and the following accounts: Dr. Joseph A. White, \$500; S. Hirsh (after payment by him of certain notes on which he is endorser), about \$9.50; B. C. Lewis, \$140; C. H. Read, \$25; Charles Chalk, \$21; M. Millhiser & Co., \$19.63; M. Millhiser & Co., \$19.63; M. Millhiser & Co. (after the payment by them of orders on them), about \$156.57; one share of stock in Melrose Land Company, and five shares of stock in the Corcoran Hall Company.

The creditors in order of their preference are as follows:

A Statement from Mr. Burgwyn.

Mr. Burgwyn was seen by a Disparch reporter last night at his home on Third street and asked about this matter. He was also shown the account published in an afternoon paper. After a little reflection he made this statement:

"It is not a fact that I draw a salary from the city as engineer for Oakwood cemetery. I am the principal of the Night School of Technology at the Virginia Mechanics Institute and instructor there in trigonometry, applied mechanics, and engineering, and am much gratified at being able to add my mits to the great benefit that institution is diffusing throughout the city. The creditors in order of their preference are as follows:

The effect of a jetty upon a river can only be determined by study of the section after a certain lapse of time and these resurveys are made from time to time to measure these effects. The resurvey at this time has been finished. While in the service of the United States the propeller of the tug struck a sunken log and broke one of its flukes. I am getting estimates now of the cost of replacing the wheel and of executing certain other repairs so as to return the tug to the city officials in the same condition as when the tug was loaned. The works executed under the supervision of the United States officials have always been in harmony with the city's interest. If there has been any dissatisfaction I have never heard of it, certainly not officially.

DIGGING OUT THE HARBOR. Appreciate the Fun.

Among the cases called in the Hustings Court yesterday was that of Edwin Gould, who is under indictment for publishing and exhibiting obscene portraits.

A summons was issued for Edward Travers as a witness and put in the hands of a deputy sergeant for service.

The officer returned in a few moments and said that the man claimed that his name was George Traver, and not Edward Travers, and that he would not come.

certainly not officially.

DIGGING OUT THE HARBOR.

"The question of applying any of the money appropriated for improving the river to digging out the harbor is a very delicate one, on account of the wording of the law on this subject. If the proper authority could be obtained from the Secretary of War to expend any part of the appropriation in the harbor, I know Colonei Craighfill would do the very best that is possible to be done. I have recommended that the sand be removed from portions of the harbor-channel for the reason that there is where it first stops after coming down from the mountains over the falls, sad if it is not taken out from there it will ultimately be washed into the channels that have been so carefully prepared below. It would be cheaper for the United States to remove the sand from the river channel rather than from the river channels. I think the authority of the Secretary of War is necessary to settle the legal status of the wording of the appropriation. If the appropriation has been worded so that any expenditure of money on the harbor is prohibitory, that is not the fault of the engineers. They must obey orders.

the appropriation has been worded so that any expenditure of money on the harbor is prohibitory, that is not the fault of the engineers. They must obey orders.

APPOINTMENT OF DE PRIEST.

"Mr De Priest was appointed by me to the position of sub-inspector on the works at the request of the representative from this district in Congress. He was also recommended by several prominent citizens. The details of the execution of the work on the James river is generally left with me, and if any of the Council committee or any one else thinks that any improper appointments have been made of any work improperly done if they will formulate such charges in writing over their own signatures I will investigate the grossest injustice to take cognizance of anonymous or verbal accusations, and cowardice for informers to make such."

DR. HATCHER'S RETURN.

DR. HATCHER'S RETUEN.

Dr. W. E. Hatcher returned yesterday from Lynchburg, where he has been for over two weeks engaged in revival services in the First Baptist church of that city. He reports that the meeting was highly successful. Up to the time the Doctor left fifty persons had joined the church and there will be other accessions. It was understood that as soon as Dr. Hatcher finished his work in Lynchburg he would begin revival services in the Grace-Street Tabernacle in this city. It is expected that the meetings will begin to-day and continue for two weeks at least. Dr. J. S. Felix, of Lynchburg, is to do the preaching in the meeting and Dr. Hatcher considers himself and the people fortunate in securing his services. Dr. Felix is a fresh and powerful preacher and has had large experience and great succes in revival work.

Rev. J. R. Harrison, who has held successful meetings in Manchester and at Pine-Street and Clay-Street Baptist churches in this city, will preach at the Second Baptist church to-night. A series of meetings will follow. There will be preaching every night this week at 8 o'clock. The chorus the church will any at all the the church will sing at all the meetings.

MR. MASON AT ST. MARK'S.

Rev. Mr. Mason preached Friday night at St. Mark's to a very good congregation if we consider the inclement weather and the dangerous walking. His remarks were based upon the following texts: St. Matthew 19-20—"What lack I yet?" and St. Mark 10-21—"One thing thou lackest." It was a clear and solemn exposition of the subject. Next Friday night the Rev. Hartley Carmichael, of St. Paul's, will preach.

DEATH'S HARVEST.

Touching the question, Who would be awarded the judicial ermine in this circuit? he was very non-committal. About as near as he came to close quarters was to express the opinion that it would take some time to get that matter into shape, and intimated that as the Democrats had taken the affair is hand, he did not know that the Republicans would be consulted.

On direct examination and under rigid cross-examination designed to elicit from him whether he was a candidate for the new judgeship, he took anvantage of the provision of the law which shields a witness against criminating himself and answered that men are not candidates for judgeships and seldom decline to accept them when tendered.
